ABOUT US

Hangzhou Metek Co., Ltd. is an excellent supplier, specializing in production and export of barn door hardware, wooden door, metal frame glass door, wooden wall plank, acoustic panel, shower room, resin table, height adjustable desk and other products since 2011.

Located in Taizhou, Zhejiang Province, our factory covers an area of 12,000 square meters, owns 92 sets of production machines and 3 sets of testing machines with more than 80 employees. Metek is also investing large amount for R&D every year. The product material range we are involved in, is from hardware to wooden, glass and more.

We have professional and experienced teams who focus on product development & design, quality control & inspection and company running. In order to supply satisfactory products and services, we have built a modern quality management system which is in strict accordance with international standards. Choose Metek, you deserve better!

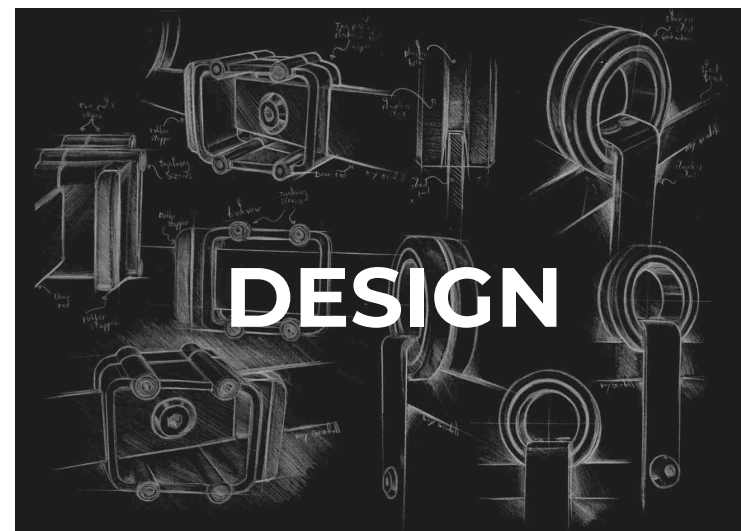

We moved to our new office in 2023. It offers us a better work environment, which makes us focus on the product itself. We do believe a good test on the design is a very important factor to offer our clients good products constantly.

With perfect management system and production flow, our factory has passed kinds of Factory Audit. Not only the audit by clients but also some third party audit. We are also trying to improve our facility to meet more and more clients requirements.

All of our products are produced under the standards of ANSI/BHMA A156.14-2013. With professional testing equipments, we test all of our products especially the new items frequently in our own lab. The most popular models are also tested by the Intertek Lab. If the reports are requested, do not hesitate to contact us!

Cooperating with an outstanding foreign design studio, we keep working on new designs. Some of the designs have been already put into mass production and earned favourable comments among the clients. We are also trying to apply the patents to protect each of our own designs.
